February 25, 2021

The Honorable John Kerry  
U.S. Special Presidential Envoy for Climate  
Executive Office of the President  
1600 Pennsylvania Ave NW  
Washington, DC 20500

Dear Mr. Kerry:

We are enthusiastic about your appointment and consider it as a positive sign that the Biden administration is serious about tackling the climate crisis.

I write to you on behalf of a handful of nonprofits engaged in monetary reform advocacy to ensure that you are aware of rarely mentioned funding mechanisms to combat climate change.

We want to share with you and your staff the enclosed position paper that enables us to solve our current lack of timely implementation of climate change alternatives. It will only take about 20 minutes to read and determine if you want to go forward with further research. It is a transformative proposal that can enable us to fund all the climate changing technologies we need through rectifying an underlying flaw in our monetary system.

The proposal is supported by the following nonprofits: the Alliance For Just Money at [monetaryalliance.org](http://monetaryalliance.org), the American Monetary Institute at [monetary.org](http://monetary.org), the How We Pay for a Better World campaign at [HowWePay.us](http://HowWePay.us), and the Center for Progressive Economics at [cpe.us.com](http://cpe.us.com).

We will provide further research materials at no cost. Please review the sources in the position paper.

If you want to discuss this paper with the lead author you can email or call Mark Pash, CFP at [pashbenson@gmail.com](mailto:pashbenson@gmail.com) or 818-905-9538.

Sincerely,

Mark Pash  
Center for Progressive Economics
